SOMERSET ELCID SIANG

CEO

Advanced Infinit Technology Solutions Inc.

Unit 304 La Cima, McArthur Highway, Matina

Davao City

Dear Mr. Siang,

I am writing to express my strong interest in pursuing a Computer Science Internship at Advanced Infinit Technology Solutions Inc. As a 3rd-year Bachelor of Science in Computer Science student at University of Mindanao, I have been following the local tech landscape in Davao City and am deeply impressed by your company's dedication to innovative technology solutions. I am eager to contribute to your team while further developing my skills in a professional environment.

Throughout my academic journey, I have built a solid foundation in software development, data structures, and object-oriented programming. Beyond the classroom, I have actively challenged myself with practical, hands-on development including designing, optimizing, and deploying independent projects, such as web-based games and applications using modern engines and static hosting pipelines. Through these experiences, I have learned how to troubleshoot deployment hurdles, manage cross-origin browser security configurations, and optimize assets for web performance.

Advanced Infinit Technology Solutions Inc. has a reputation for delivering high-quality tech services, and I am highly motivated to learn from the experienced developers and engineers on your team. I am a quick learner, highly adaptable, and passionate about writing clean, efficient code. I am confident that my technical curiosity and problem-solving mindset will allow me to make a meaningful contribution to your ongoing projects during this internship.

Thank you for your time and consideration. I would very much welcome the opportunity to discuss how my skills align with your team's current needs in an interview.

Sincerely,

Julio Caesar Tadena
