📍 Catalunan Pequeño, Davao City

OBJECTIVES

My ultimate goal is to obtain experience and knowledge about working in a professional work pipeline and integrate such valuable knowledge into my own workflow. Additionally, I aim to not only learn but also to apply the knowledge that I gained in web development, software engineering, and code architecture in a professional environment. I plan to perform in the utmost professional degree and would love to work with others that feel the same passion towards computer softwares as I do.
